www.tpls.co.uk

We offer flexible project management solutions, either as the principal contractor overseeing the entire project or by collaborating seamlessly with your appointed team to fill in, fix up, or expedite progress as needed.

**We are fully insured and committed
to your peace of mind with our
Satisfaction Guarantee.**

In 2003, we founded TPLS Interiors with a clear mission: to bring unparalleled quality and reliability to the construction industry. With nearly two decades of experience, we specialise in suspended ceilings, drywall installation, dry lining, partitioning, and tape & jointing—services tailored to meet the unique demands of commercial, corporate, and retail environments.

Our hands-on approach as directors ensures a personal level of involvement in every project. We're actively engaged in the daily operations, ready to step in when needed to keep projects on schedule. This commitment not only strengthens our reputation for reliability but also allows us to maintain a lean and efficient structure, delivering exceptional value without the overhead of mid-management costs.

TPLS Interiors is as dedicated as ever to delivering a standard of excellence that's second to none. Whether you're planning a corporate office, retail space, or commercial development, our team has the expertise and experience to bring your vision to life with precision and professionalism.

Let's discuss how we can make your next project a success.

About TPLS?

- **Expertise and Experience:** Proven track record with projects across various sectors.
- **Flexibility and Reliability:** Available for full project management, subcontracted scopes, or supplemental support for other contractors.
- **On-Time Delivery:** Committed to meeting deadlines and helping others achieve theirs.
- **Quality Assurance:** High standards of workmanship backed by a hands-on management approach.

Our Approach

- **Initial Consultation:** Understanding project scope and specific needs.
- **Tailored Solutions:** Customised approach to meet project timelines and budgets.
- **Collaborative Execution:** Close coordination with clients and contractors to ensure seamless progress.
- **Quality Control:** Regular quality checks throughout the project.

Flexible Engagement

- **Main Contractor:** Leading entire project scope, from planning to execution.
- **Subcontractor:** Specialised services in dry lining, tape & jointing, or suspended ceilings.
- **Project Support:** Extra manpower to assist contractors with time-sensitive projects.

We understand the challenges and offer tailored solutions to help get your projects over the line successfully and on time.

SUSPENDED CEILINGS

With over 20 years of combined experience as ceiling contractors in the UK, we offer a comprehensive range of suspended ceiling installation and repair services for various businesses and projects. From acoustic ceilings to fire-rated protection, we'll help you find the perfect, efficient, and aesthetically pleasing solution for every space. Let us transform your interiors with suspended ceiling tiles, false ceilings, and ceiling rafts that elevate your environment.

DRY WALL SOLUTIONS

Drywall partitions are a cost-effective, versatile solution suitable for all types of buildings. These separating walls offer an economical way to create distinct working areas within a building. We provide a range of dry lining options designed to meet specific performance needs, including acoustics, moisture, impact, and fire resistance. For a unique office or retail space, we also offer glass and demountable partitions that can be combined with drywall for a customized look.

GLASS & DEMOUNTABLE PARTITIONS

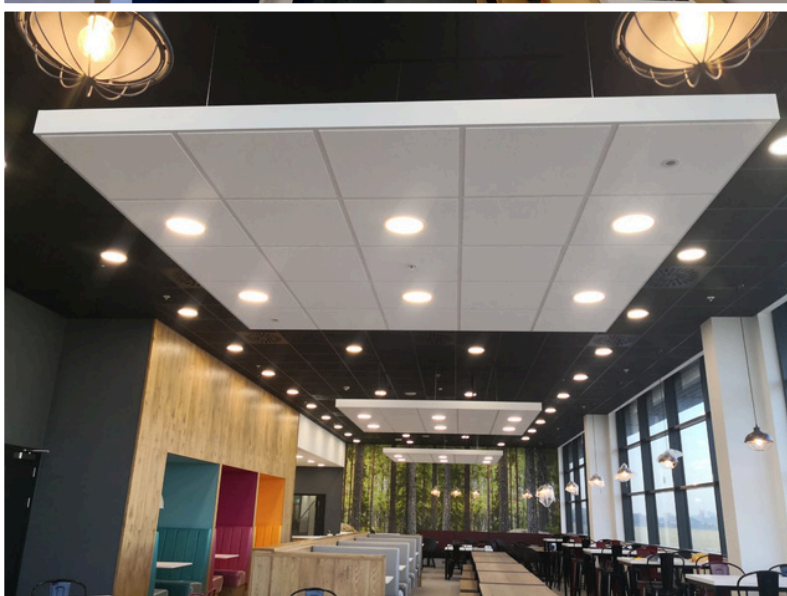

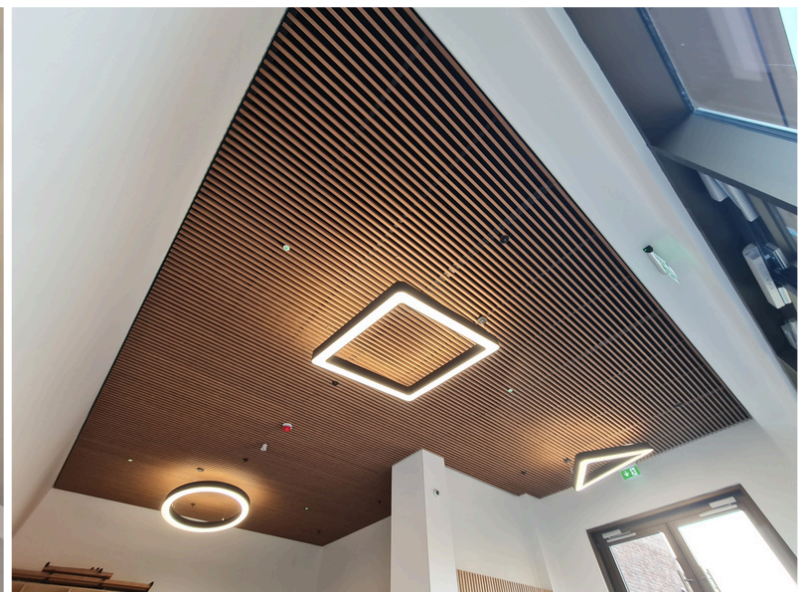

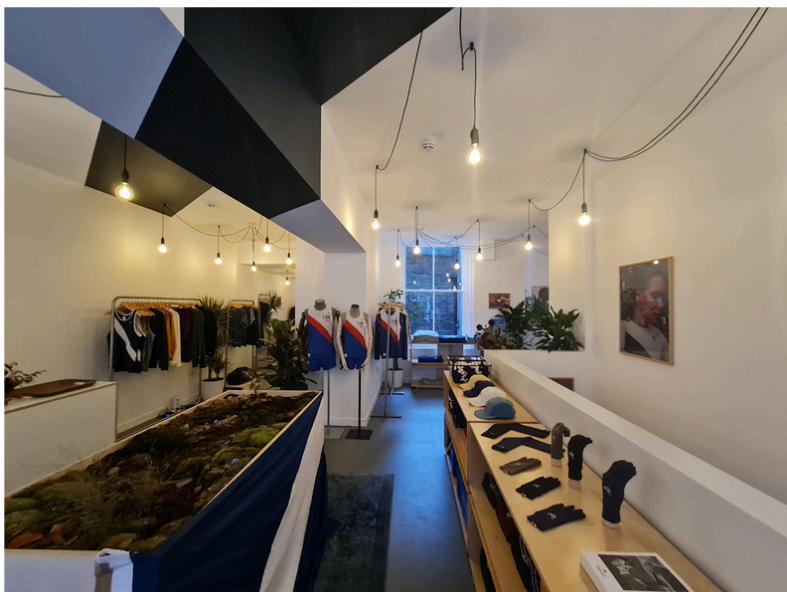

Ideal for modern office spaces, glass partitions allow natural light to flow freely, enhancing productivity and creating an inviting ambiance. We specialize in demountable glass partitions, available in single or double glazing, with options for acoustic and fire-rated features. Our glazed partitioning systems, including doors and walls with optional internal blinds, manifestations, and other customizations, can transform outdated spaces into fresh, vibrant work environments.

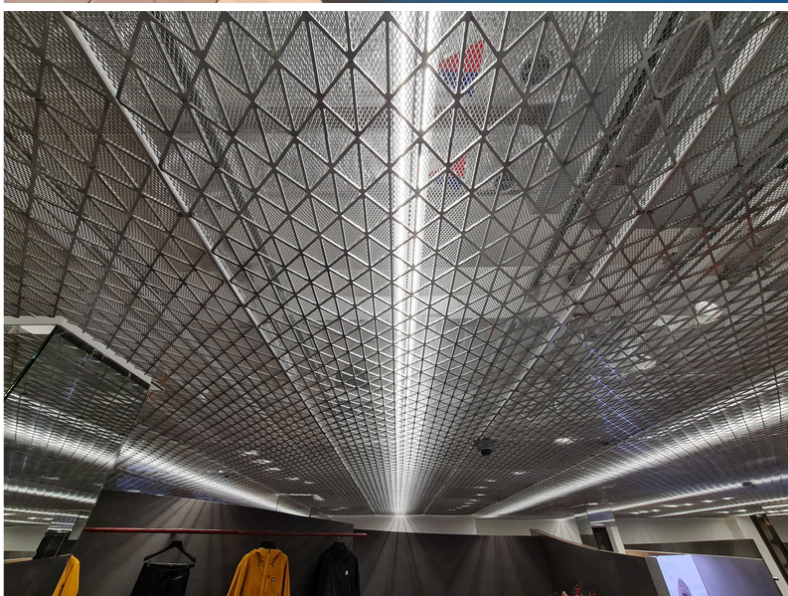

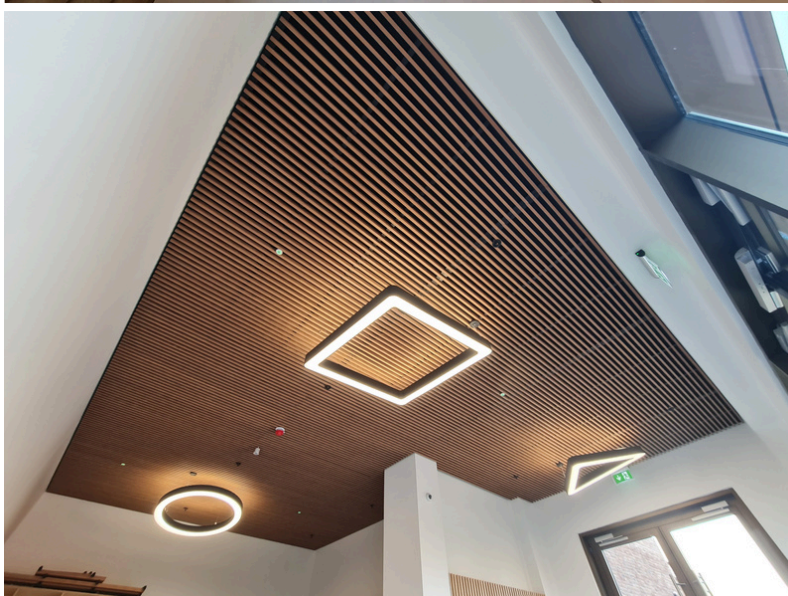

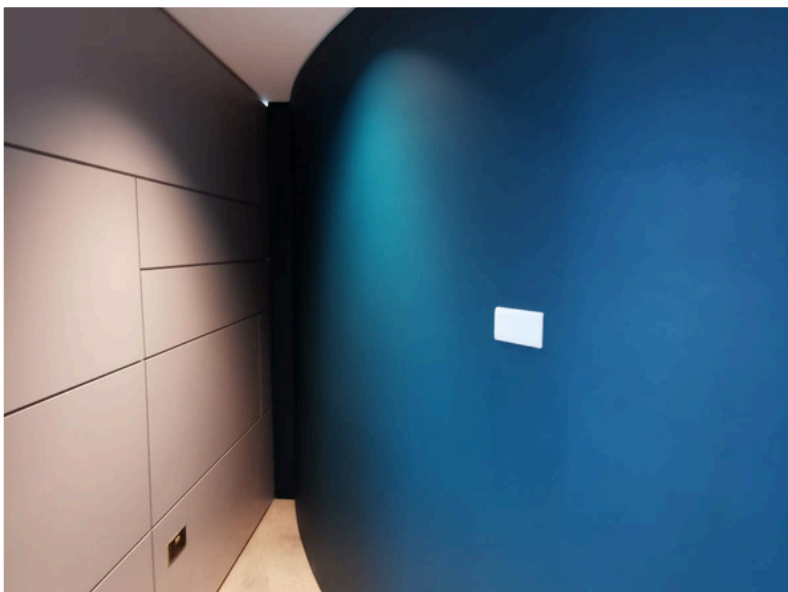

TAPE AND JOINTING & DRY LINING

Our expertise in dry lining, tape, and jointing ensures a seamless, high-quality finish ready for decorating without the need for additional plastering. The slightly tapered edges on plasterboard allow us to cover joint tape with compound, achieving a flush surface. This efficient approach delivers a quick, clean, and professional finish, making spaces ready for painting and final touches.

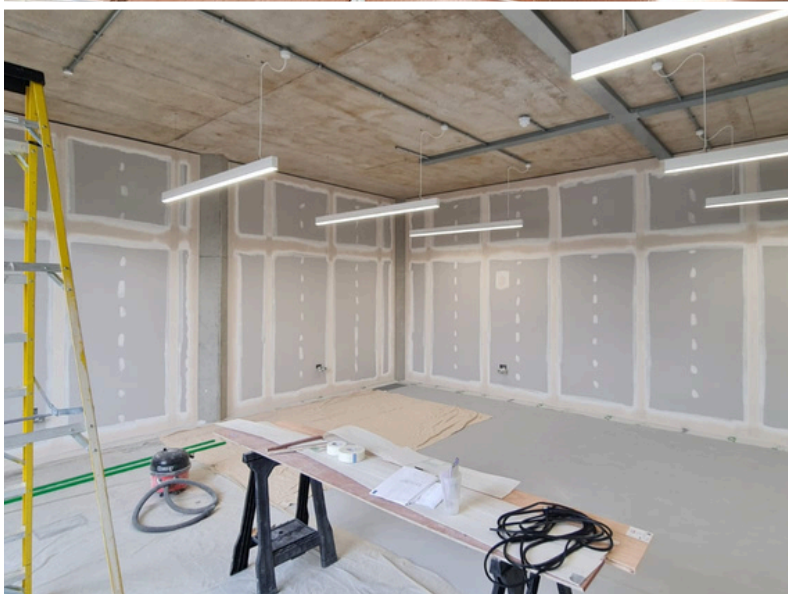

STEEL FRAME SYSTEMS

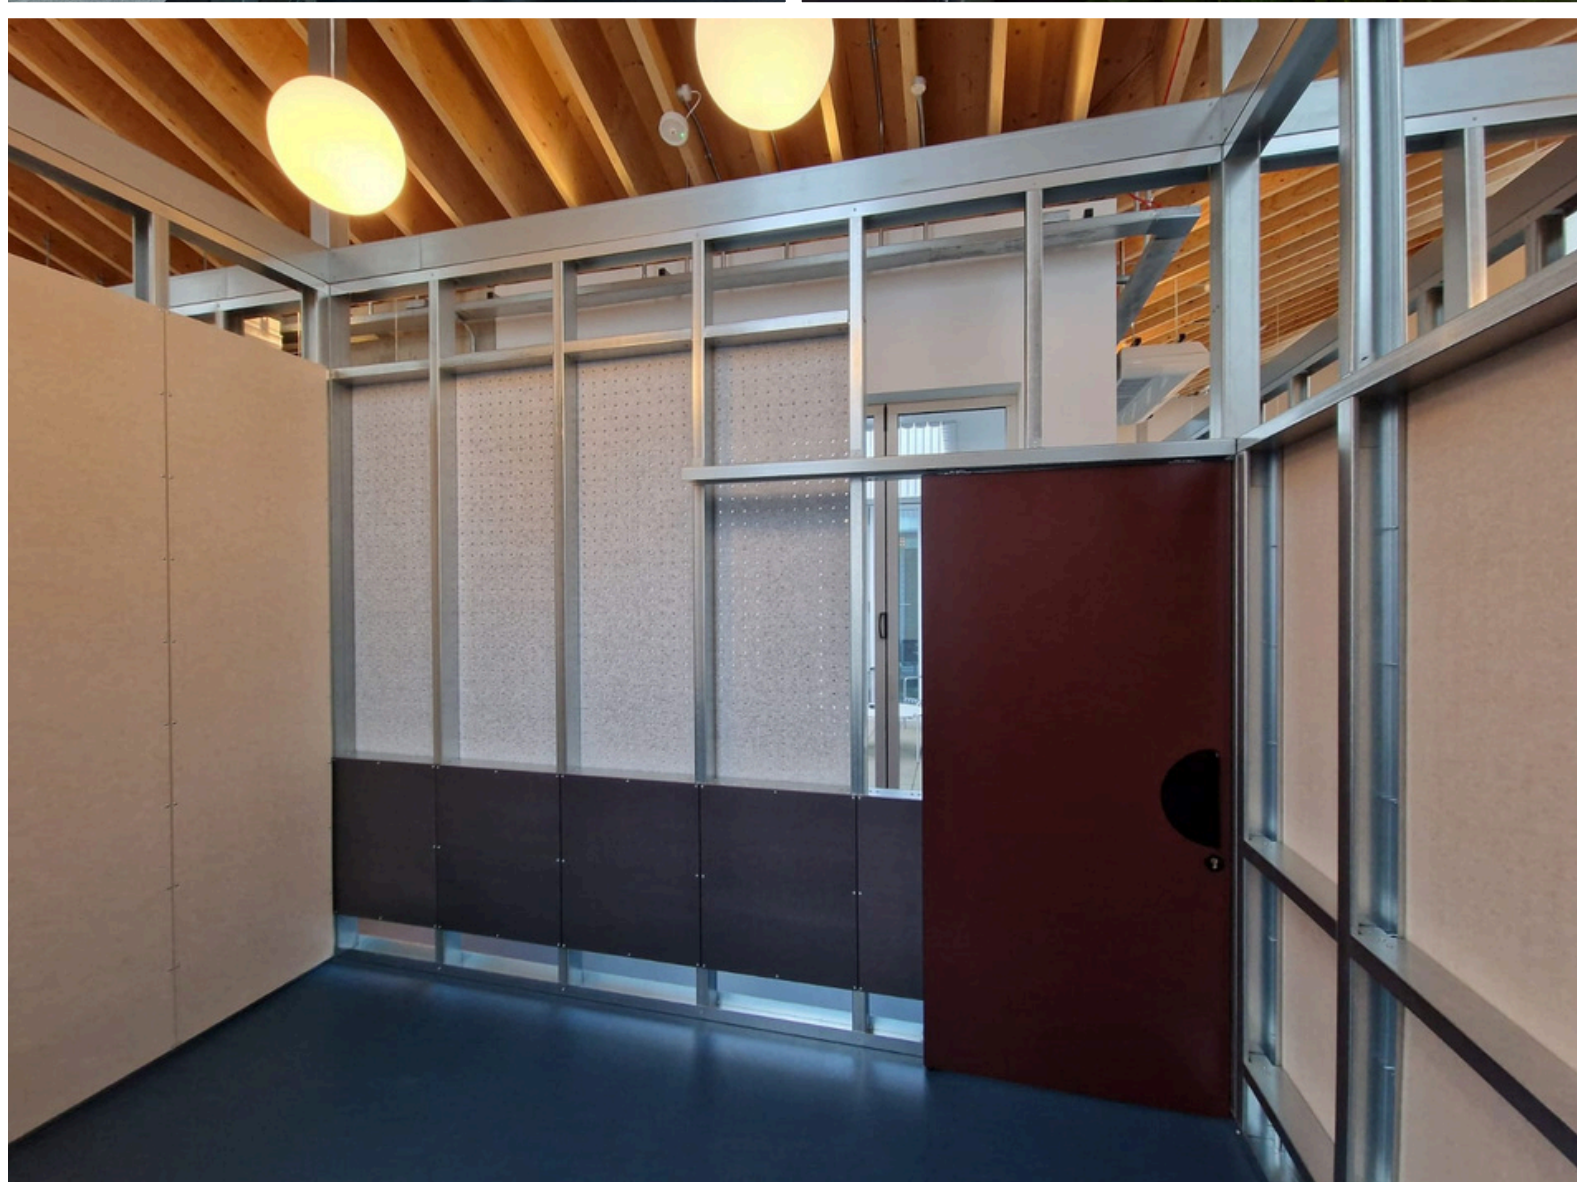

Our steel frame systems offer a proven, cost-effective, and efficient cladding support solution suitable for both concrete and steel-framed buildings. These lightweight structures are easy to erect and provide a durable alternative to traditional steel and concrete frames, making them ideal for medium-rise buildings. Steel framing solutions are perfect for projects that demand innovative architectural designs and rapid build timelines.

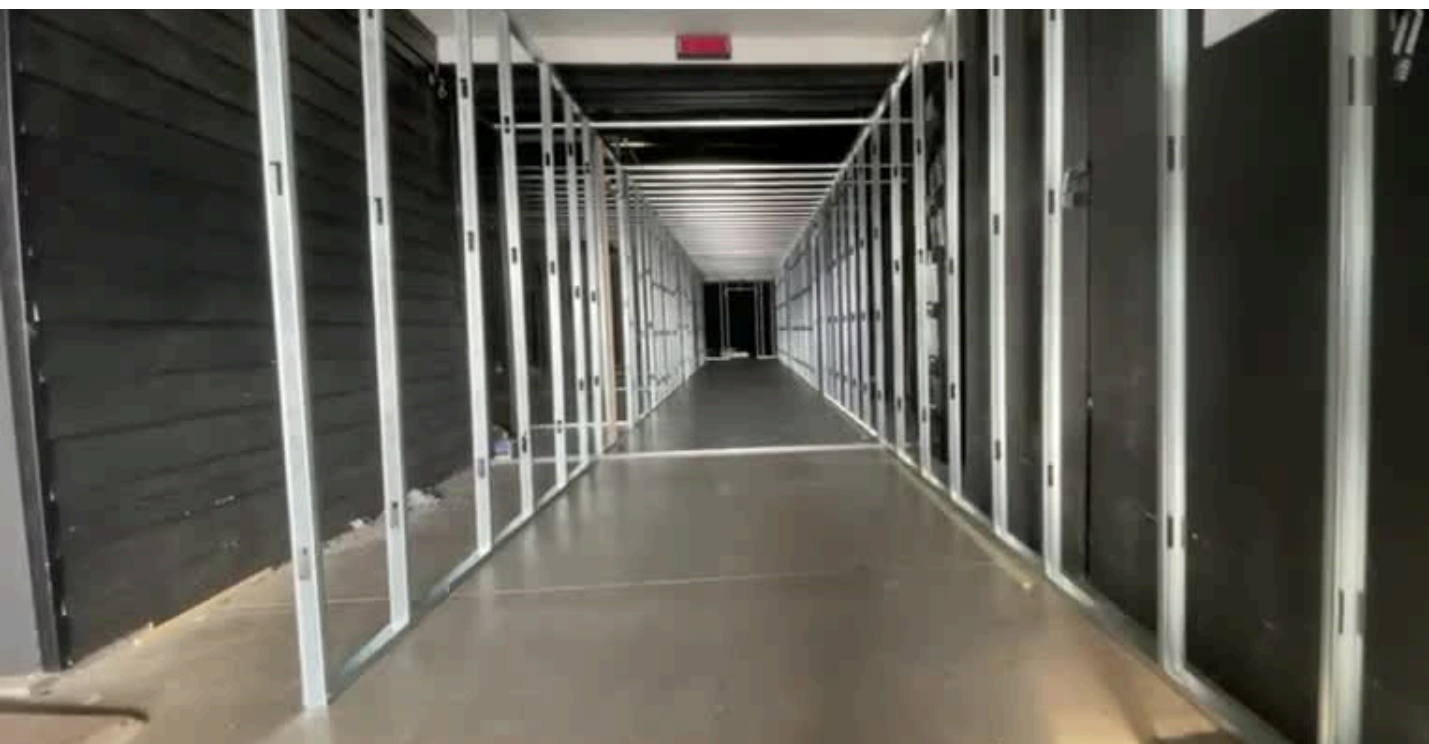

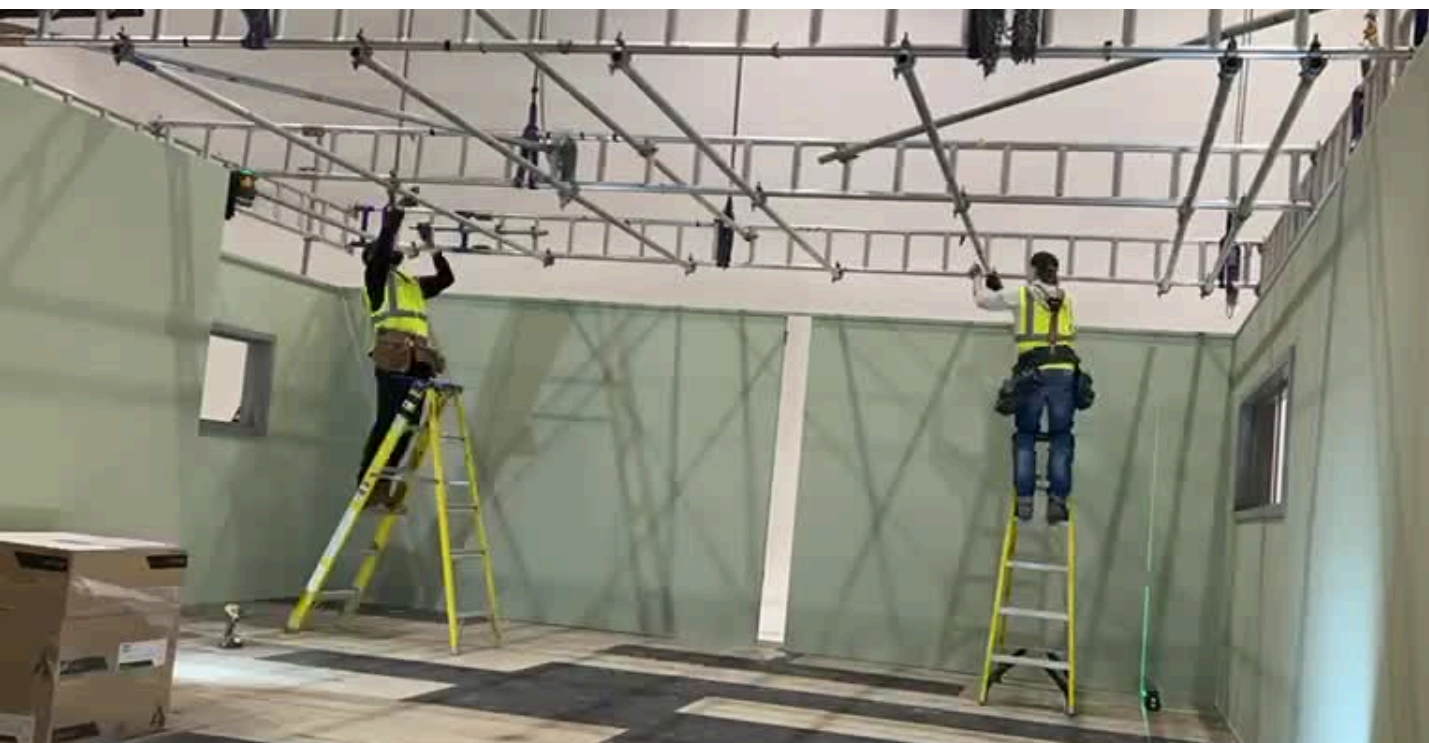

WHY TPLS?

Well established full service contractor based in London offering competitive rates and a satisfaction guaranteed peace of mind solution for any of your projects!

With over 20 years of delivering exceptional work, we'd love to discuss your next project.

Call us today at 07893 933699

Whether you need full project management or a reliable subcontractor, we're here to support you from start to finish.

Our Promise

Quality and Professionalism

We deliver exceptional quality and professionalism in every project, from small refurbishments to full-scope developments, ensuring excellence across all sectors.

Lean and Competitive

Our lean structure eliminates unnecessary overhead, keeping our rates highly competitive while delivering outstanding value and high-quality work.
